Grades 3,4,5 Flash drive

Technology for High School Students

All students in high school may use a personal device (laptop, tablet). Some teachers may use these regularly in class. We see this as preparation for future education and the work force as technology becomes more and more a part of our lives.

STEM

- 1 2-liter bottle
- 2 5 paper towel tubes
- 3 1 packet of mini glue sticks
- 4 1 roll of duct tape
- 5 1 3'x3' poster board

Sixth-Twelfth Grades

1. Bible—**Study Bible** is preferred; can be any translation, but **MUST** have a concordance.
2. Pencils/Erasers
3. Pens—blue or black
4. Highlighters
5. Colored pencils (for all sciences/history)
6. Notebook paper (enough to last the school year)
7. 3x5 lined index cards (according to individual teachers)
8. Folders
9. Spiral notebooks (notes for individual classes)
10. Scientific calculator (TI-30XA, approximately \$10).
Graphing calculators are **recommended** for 8-12th grades.
11. Scissors
12. Glue Sticks
13. Flash drive—for school use only
14. Geometry—compass/protractor
15. Book covers for hardcover textbooks.
16. Junior High students must have a 3-ring binder with dividers to help organize their papers.
17. Junior High students must have a planner.
18. Junior High students must have a large plastic shoe box with lid for at home supplies for Science and STEM.

NOTE: If Junior/Senior High students would like to use the SOAR system of organization, the following supplies are needed:

1 inch binder with pockets
5 pocket dividers
Loose leaf paper

THIS WOULD COVER NOTEBOOKS/FOLDERS/BINDERS AND A PLANNER FOR ALL CLASSES.

Many projects and papers will be given during the course of the school year and students may need additional folders for report covers or index cards for research. Some teachers prefer students to take notes in a spiral notebook (for easy study purposes). Teachers require that written assignments be on regular notebook paper—not torn from a spiral notebook.

NOTE: Internet access for research is important. Students cannot depend upon school internet/computers for all projects. Access at home or the ability to get to and use the public library should be available to students. Students should also have access to a printer at home or the library, and should not rely on using the school's copier or printers. Students will be charged \$1.00 per page for printing.
